

PU SEALER

Dr. Schutz

Now it's possible:
Heavily frequented and
well used floors – lasting good looks!

Looks fantastic & enables longer
use with **potential savings**

PU Sealer.

The solution for your floor.

Especially suitable for:

Vinyl & design floors, linoleum & rubber floors

In buildings like e.g.

Department stores, shops, offices & administration, hospitals,
medical practices & nursing homes, schools & sports halls,
food & catering facilities and in staircases

We care about floors!

Is this your **floor problem?**

- extremely frequented floor means hard wear and heavy use
- ugly scratches and unsightly friction marks
- your floor needs intensive care and causes high cleaning costs
- it seems like renovation will soon be unavoidable
- long business interruption would be too expensive and unacceptable
- hygienic conditions fall short of optimal
- safety underfoot is limited, compared with the new condition

**Your customer and you
both benefit:**

Cost comparison:

Conventional method vs. PU Sealer

**Savings up to 50 % according to FIGR Institute *
(100 m², 15 years)**

* The prices per m² and the technical lifetime of the flooring are based on the calculations of the FIGR (Research and Testing Institute for Facility Management GmbH), as well as the guarantee statement of Dr. Schutz. The costs per m² for replacement of flooring take into account the removal and disposal of the old covering, treatment of the surface underneath, as well as buying and laying new flooring.

AOL Arena,
Hamburg, Germany

Medical practice,
Recklinghausen, Germany

Then

PU Sealer is your solution:

- guarantee 6 times higher long-term protection for the surface against friction damage and scratches
- economical in use and friendly to the environment
- make the floor resistant to chemicals and plasticizers
- improve the overall appearance and makes a good impression
- proven to extend the lifetime of floor use
- guarantee safety underfoot

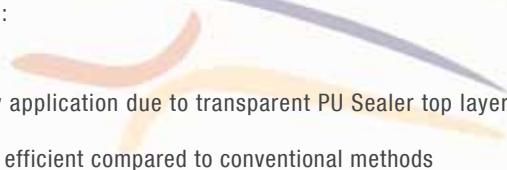

Corpus Museum,
Den Haag, The Netherlands

Your design plus: embedded foil

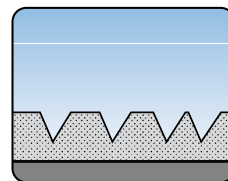

Whether you want your own logo or orientation guides on the floor - the design elements can now be created using an embedded foil:

- easy application due to transparent PU Sealer top layer
- cost efficient compared to conventional methods
- any form and color possible

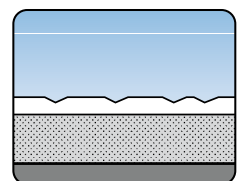

The way it works: Simply ingenious – ingeniously simple.

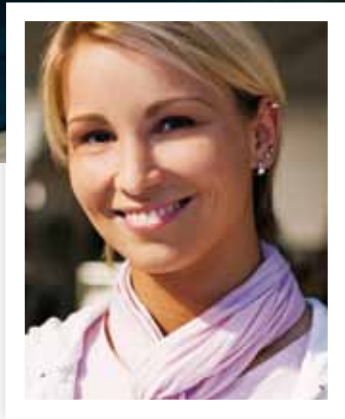

Extremely hard wearing with PU Sealer:

Without PU protective layer.
Heavy use and wear, together with dirt particles can cause permanent damage to the surface structure.

PU Sealer protects the surface and makes the floor particularly easy to clean and care for.

Really fantastic – the PU System from Dr. Schutz: We've been using PU Sealer and Cleaner for over a year. And the floor still looks fresh and well cared for. It's just ideal, as if it were specially made for us: it's hard-wearing, robust and always looks top class.

Lucia Nahen – Branch Manager
of the Naturathek, Berlin

PU Sealer.

Successful protection for
your floor from Dr. Schutz.

Satisfied Customers. Since 1955.

Dr. Schutz is a family business with a true success story. Because we give our customers tailored solutions to their unique problems – for everything to do with renovation and refurbishment of floor coverings.

Driving innovations, protecting the environment, retaining quality.

For optimal results, products and processes have to be developed and updated – while retaining quality and protecting the environment. Therefore Dr. Schutz has invested in water-based systems, as well as production and renovation using sustainable resources – instead of disposal.

Your advantage: save costs – with a long-term guarantee.

All Dr. Schutz cleaning & care products increase the lifetime of your floor's use and actively reduce maintenance and cleaning costs. Furthermore, you receive a certified guarantee with all products, systems and long-term coatings & coverings.
